

We must open the doors of happiness!

Dear compatriots

In the present year, on the 12 may with insulting actions against Turks official, the public organ of Iranian Islamic state “Iran Newspaper”, again to all proved that inadmissible behavior of those nesting inside the authority, not for the first time and not latter. The sons of Azerbaijan, who stand on the protection of the national property, which are especially trained at the universities in these days, expressed by their loud voices and by strong wills, their limitless hatred and disturbance in the cultural form against to supporters “apartheid”. Especially in Tabriz, which is considered the cradle of culture, were conducted the marches of the protest 22 may of this year with participation by ten thousands of citizens.

We, being the national front of Azerbaijan, condemn all superhuman behavior, conducted against our nation and we express to their behavior deep hatred. But we also greet the national protest of brave azerbaijani sisters and brothers and of their reviving national motion from all forces we support.

Dear citizens!

The glad case, that the foundation of the national

motion of Azerbaijan, is South Azerbaijan, such its forward direction depends on the iron will of Azerbaijan nation and it is not connected not with what groups, organizations abroad. We are assured that this is the national-democratic motion, sooner or later this to end with the clear views of our national active memberships, the independent measures and the initiatives finally by the self-determination of the fate of our nation within the framework of civil rights. In this truth we believe by entire essence.
